

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 1	Ongoing theme – Plants and Seasonal Change					
	Enquiry question: How do you know the person next to you is alive? Animals including humans		Enquiry question- Can a bus be made of fabric? Everyday materials		Enquiry question- Are plants alive? When do plants like to grow? Plants and seasonal changes	
Year 2	Ongoing theme - Plants					
	Enquiry question: How will 5 a day keep me healthy? Animals including humans		Enquiry question: Would you use an umbrella made out of paper? Everyday materials		Enquiry question: What do plants and animals have in common? Living things and habitats	Enquiry question: How can we be great gardeners? Plants - focus
Year 3	Ongoing theme – Plants (link to weather and seasons)					
	Enquiry Question: What do rocks tell us about how the Earth was formed? Rocks	Enquiry Question: How do living things get their food? Animals, including humans.		Enquiry question: Will a large magnet pick up larger objects? Forces and magnets		Enquiry question: What can you see when there is absolutely no light? Light

Science vision: Our vision is to give children a Science curriculum which creates a sense of excitement, awe and wonder so that they have a deeper understanding of the world we live in. To achieve this, it involves practical hands on experiences that encourage curiosity and questioning. All lessons promote the ethos of working scientifically. Pupils will be actively involved through practical learning, seeking answers to questions; classifying or analysing or collecting data. Our aim is that these experiences help children secure and extend their scientific knowledge and vocabulary. We believe that these opportunities will ensure that our children are confident, life-long learners who will explore the world around them.

Year 4	Ongoing theme – Living Things and their Habitats				
	Enquiry question: where does a puddle go? States of Matter	Enquiry question: Is it ever possible to have absolute silence? Sound	Enquiry question: What happens to a piece of bread in our body? Animals, including humans.	Enquiry question: Where does electricity come from? Electricity	Enquiry question: What would happen if there was no ice? Living things and habitats - focus
Year 5	Ongoing theme - Living Things and their Habitats				
	Enquiry question: Will we ever send another human to the moon? Earth and Space	Enquiry question: What will happen to my body in the next 10 years? Animals, including humans.	Enquiry question: How can I make a filter to clean dirty water? (link to Water Aid) Properties and changes in materials	Enquiry question: What would happen if we did not have gravity? Or What would happen if there was no friction? Forces	Enquiry question: A dilemma -Should scientists stop the life cycle of a mosquito? or What comes first -the chicken or the egg? Living things and habitats - focus
Year 6	Ongoing theme - Living Things and their Habitats				
	Enquiry question: Is there a pattern between the size and shape of a bird's beak and the food it will eat? Evolution and Inheritance	Enquiry question: What is the brightest light we can make? Electricity	Enquiry question: What would happen if I didn't have a heart? Animals, including humans.	Enquiry question: How do plants make their own food? What would happen if animals could make their own food? Living things and habitats - focus	Enquiry question: Why do we see 'history' whenever we look at the stars? Light
